Education

Siksha 'O' Anusandhan University, Bhubaneswar

Bachelor of Technology in Computer Science & Engineering, CGPA: 8.98

Jul. 2022 – Jul. 2026

Bhubaneswar, India

Modern School, New Delhi

Class XII

Mar. 2019 – Apr. 2021

New Delhi, India

St. Joseph's School, Darjeeling

Class X

Mar. 2015 – Apr. 2019

Darjeeling, India

Skills Summary

Front-End Development: React Native, React.js, Tailwind CSS, HTML5, CSS3, JavaScript, Bootstrap, Material UI, jQuery, Expo, Expo Router, Figma

Back-End & DB: Node.js, Express.js, MongoDB, PostgreSQL, MySQL, REST API Development, Socket.io

Programming Languages: Java, Python, C, C++, JavaScript, TypeScript

Concepts & Frameworks: Web Application Architecture, API Integration, SaaS Products, O2C Automation, Salesforce, Git, Vite, Metro, Postman, npm

Projects

CyberShield IDS – AI-Powered Intrusion Detection System | *React.js, TypeScript, Vite, Tailwind CSS, Framer Motion, Recharts*

- Developed a real-time AI-powered IDS dashboard to simulate network traffic and detect cyber threats across DoS, Probe, R2L, and U2R attack types with severity scoring and classification logic
- Built a responsive SOC-style interface with live packet monitoring, alert management, and interactive data visualization (traffic trends, protocol distribution) using modern UI and animation libraries.
- Integrated model performance evaluation metrics including accuracy, precision, recall, and confusion matrix, demonstrating strong understanding of cybersecurity fundamentals and data analysis.

NexusGate – Secure Microservices Gateway Platform | *React.js, TypeScript, Tailwind CSS, shadcn/ui, Supabase (PostgreSQL, Auth, RLS)*

- Developed a full-stack microservices gateway platform to manage centralized API routing, JWT-based authentication, and role-based access control (RBAC) with secure database policies and Row-Level Security (RLS).
- Built an enterprise-grade dashboard featuring real-time request logging, security event monitoring, service health metrics (latency, uptime), and an interactive API tester with token-based requests.
- Designed scalable architecture and responsive UI inspired by production tools, demonstrating strong understanding of microservices patterns, API gateway design, database security, and DevOps concepts.

HDI Platform – India's Largest Interview-as-a-Service Solution | *React.js, Tailwind CSS*

- Developed a scalable and responsive front-end for an AI-powered hiring platform that automates end-to-end recruitment workflows including candidate screening, interview scheduling, and evaluation.
- Contributed to interview scheduling, transparent billing, and post-offer candidate engagement workflows to improve hiring efficiency and reduce attrition.
- Contributed to transparent billing systems and post-offer candidate engagement workflows, helping reduce attrition and improve the overall recruitment process.

PulseChat – Real-Time Communication Engine | *React Native, Expo, Node.js*

- Engineered a cross-platform real-time messaging application using React Native and Expo with Socket.io and WebSocket-based communication.
- Designed RESTful APIs for user and message management, with MongoDB persistence, Expo Router navigation, and asynchronous state updates for low-latency messaging.

Internships & Positions of Responsibility

HighRadius Technologies

Jun. 2025 – Jan. 2026

Techno Functional Consultant – Order to Cash – Collection

Bhubaneswar, Odisha, India

- Worked as a Techno-Functional Consultant Intern in the Order-to-Cash (O2C)-Collections domain for Fortune 500 clients.
- Supported end-to-end AR collections processes on a large-scale SaaS finance platform serving enterprise clients.
- Handled financial data from client ERPs via SFTP and APIs; performed validation, reconciliation, and root-cause analysis for collection failures.
- Assisted in process automation, job monitoring, and operational issue resolution using ASG, AOF, and Snowflake.
- Used Salesforce to raise, track, and resolve cases and JIRA to manage issues, tasks, and SLA adherence.
- Managed and collaborated with 70+ high-profile clients including Danone, Mattel, Nasdaq, Kraft EU, Spin Master, Coca-Cola, and Unilever.

Hiring Dog

Mar. 2024 – May. 2024

Software Development Project Intern

Remote, Bhubaneswar, Odisha, India

- Played a key role in building and optimizing India's largest tech interview platform aimed at streamlining hiring for top companies.
- Developed scalable and responsive front-end components using React.js and Tailwind CSS to improve user experience and interface performance.
- Contributed to features supporting efficient scheduling, transparent billing, and post-offer candidate engagement.
- Collaborated cross-functionally with design and product teams to ensure seamless functionality.

TVS Credit Services Ltd.

Jul. 2024 – Present

Campus Ambassador

On Campus, Bhubaneswar, Odisha, India

- Spearheaded brand engagement and campus outreach under the E.P.I.C 6.0 Program at SOA University.
- Recognized among the Top 25 Campus Ambassadors in India for leadership, strategic communication, and student engagement.

E-Cell, SOA University

Mar. 2022 – Present

Event Management Head

On-site, Bhubaneswar, Odisha, India

- Led the planning and execution of large-scale tech events, workshops, and innovation drives.
- Ensured seamless coordination, impactful outreach, and meaningful collaborations for student initiatives.

Google Developer Student Clubs x SOA

Google Cloud Advanced Milestone Achieved

*–
SOA University*

- Completed the Google Cloud advanced milestone as part of GDSC x SOA activities.

Certifications

IBM Data Science and Machine Learning Professional Certificate
The Complete Web Development Bootcamp by Dr. Angela Yu

Academic Achievements & Awards

Winner, HORIZON Hackathon 2024, Indira Gandhi Institute of Technology (IGIT), Sarang
Winner, HORIZON Hackathon and Ideathon 2025, Indira Gandhi Institute of Technology (IGIT), Sarang
Competed in 6 Hackathons
Competed in 4 Ideathons
Runner-up, SOA Cup 2024, Table Tennis
Semi-finalist, IIT Varanasi, Table Tennis
